

# Welcome to oaSES and oaSES-10!

Last Updated Wednesday, 16 December 2009

oaSES is the premier online management software for SES providers. With the latest oaSES-10 version, it features all the functionality you need to manage your SES operation plus a clean and simple design. Maximum flexibility and a huge number of features give oaSES the power needed to streamline the workload of any SES provider, large or small.

Some key benefits of oaSES include:

- Data Organization - oaSES organizes all student, tutor and related information in one place.
- Streamlined Operation - oaSES significantly reduces paperwork and administration.
- Business Information - oaSES provides instant snapshots and overviews to see "at-a-glance" the performance of your business.
- Quick Reaction - oaSES alerts you to impending operational issues before they happen.

There's a huge number of improvements and new features in oaSES-10 and the highlights include:

- Great new screen designs and layouts.
- Faster and simpler operation - less clicking, scrolling and screen re-draws.
- A comprehensive Learning Plan creation function allowing unlimited goals, multiple benchmarks per goal and including all current State standards pre-loaded for your use.
- An updated Progress Report module including Learning Plan & SMART Goal reporting features and a graphical progress indicator.
- A brand new tutor/student scheduling module which allows intelligent matching on SLP focus, grade level and availability.
- Full featured staff pay module with capabilities for different pay rates, pay periods (monthly, semi monthly and bi-weekly), bonuses, advances, deductions and more.
- Quick and simple district invoicing module which displays all billable student hours on one screen allowing easy fine tuning and modification before creating and submitting the invoice.
- Export attendance and invoice data in formats compatible with many district systems including Cayen, EZSES, NYC DOE and others.
- Transfers points awards to the uBoost Student Reward System.
