

## A Great FL Summit for SES (and oaSES)

A team from oaSES attended the 2008 Florida NCLB School Choice Leadership Summit which completed today in Orlando. The FL DOE team again organized a well run and informative Summit and it provided invaluable assistance for last minute feature ideas in oaSES-09.

We discussed and demonstrated the new oaSES-09 system with our current clients and many other interested providers. We'd like to thank our current clients for their time and warmly welcome all the providers that signed up with oaSES at the Summit. You'll shortly be getting your Welcome Pack and access to our support and training resouces.

We're sorry we couldn't get around to see everyone at the Summit but we're very interested in talking to all providers so if you would like to book a demonstration then just call us on 866-327-0035 or [click here](#) to send us an email message.
