

## oaSES-09 Released

Last Updated Thursday, 21 August 2008

oaSES-09 was officially released as scheduled last week. It is the result of many months of development work and testing by the oaSES team and includes many great contributions from our existing clients and also providers we've spoken to at meetings and conferences around the country.

Some key benefits of oaSES-09 include:

- Data Organization - oaSES-09 organizes all student, tutor and related information in one place.
- Streamlined Operation - oaSES-09 significantly reduces paperwork and administration.
- Business Information - oaSES-09 provides instant snapshots and overviews to see "at-a-glance" the performance of your business.
- Quick Reaction - oaSES-09 alerts you to impending operational issues before they happen.

There's a huge number of improvements and new features and the highlights include:

- A comprehensive SLP creation function allowing unlimited goals, multiple benchmarks per goal and including all current State standards pre-loaded for your use.
- An updated Progress Report module including SLP & SMART Goal reporting features and a graphical progress indicator.
- A brand new tutor/student scheduling module which allows intelligent matching on SLP focus, grade level and availability.
- Full featured tutor pay module with capabilities for different pay rates, pay periods, bonuses, advances, deductions and more.
- Quick and simple district invoicing module which displays all billable student hours on one screen allowing easy fine tuning and modification before creating and submitting the invoice.
